P.S. May 20th

It has been impossible to dispatch catalogue seeds earlier than now; I hope You will find amongst the seeds some worth Your cultivation. I shall be happy to hear of You, & to know that You have received this parcel,

& the previous I sent to You Cor-
antinus, via Hamburgh, by inter-
course of the Consul of the United
States.

Yours truly devoted

D. Humphreys

St Petersburgh May 9/25th 1842.

My dear Sir,

You find hereby a small panel of seeds, a certain number of which is of new introduction and gathered by Dr Lehrenk in the Kirghees territory. I delivered some months ago to the Minister of the United States, Mr. Todd a copy of the description of the new species collected by that traveller, which I hope You have already received. When Dr Lehrenk will be back from his travel I can get to the distribution of the Duplicata of his Herbarium and I hope to be able to communicate to You a good number of them.

I remain most faithfully Dear Sir

Your devoted Serv^t
